3. Receive newsletter from DWF Research

DWF Research is a knowledge network for water and development. The network promotes knowledge, capacity building, and research as important elements in Danish development assistance programs.

Danish Water Forum (DWF) is a network of Danish water organizations aimed at highlighting expertise and knowledge and facilitating concerted actions.

Information and new knowledge concerning international water issues, research, capacity building, policies, programs, activities and technological developments are published in DWF Research electronic newsletters and at DWF web site:
